The 1ZZ-FE brought Corollas substantially more power and economy; it debuted with 120 horsepower at 5,200 rpm, and 122 pound-feet of torque at 4,400 rpm. That was more power than the 7A-FE, at lower engine speeds, so that the Corolla was peppy at all engine speeds. Eventually, the 1ZZ-FE would reach 130 hp and 125 lb-ft of torque.
