Dan Wynn wanted to explore space more than life itself, but a tragic accident left him too injured for NASA's space program. Second chances don't come along every day, so when an old friend offered him one, he grabbed on with both hands. The next thing Dan knew, he was on the moon, piloting humanity's first starship while fighting his way through one peril after another. Little did Dan know that simple offer was anything but, and would lead him to the stars far beyond our own. The risks are great. But if life knocked you down, what would you gamble to have one more shot at your dreams? Excerpt: "Dan - ad astra!" Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. This book is a heavily revised second edition of the original volume. The story length has been increased by about 60%, adding enormously more background to the characters and deepening of the personality of the world and crew. If you've already read the first edition, you won't need to read this version to catch up - but fans of the series are sure to enjoy this expanded and improved "Author's Preferred Edition"!

Extensive animation and clear narration highlight this first-of-its-kind CD-ROM. It shows all major systems of jet and turboprop aircraft and how they work. Ideal for self-instruction, classroom instruction or just the curious at heart.

The second edition of author Marques Vickers' *The Ultimate Guide To Selling Art Online* is a concise reference source for artists enabling creative entrepreneurs to maximize the expanding sales capabilities of the Internet. This edition details important exposure strategies, existing and emerging sales opportunities and valuable promotional outlets. Over 500 useful reference websites are provided referencing art marketing, website design, sales and promotion outlets. This *Ultimate Art Guide* stresses the importance and urgency of cultivating a vibrant social media presence via active postings and participation with content, social networking and weblog websites. These activities supplement an artist website with videos, feedback capabilities and resources to cultivate new and return buyers. The book stresses the importance of personalization and an artist's articulation of their creative vision. Practical advice and supplementary consulting sources are offered on every aspect of website design, effective promoting through media exposure, direct mail and the cultivation of a potential and existing client base to establish long-term sustainability. Concrete and instructive sales advice is provided on the most direct online sources available today for artists including online art galleries, eBay, Amazon and Etsy marketplace stores, auction houses, design industry outlets and barter exchanges. A chapter stresses alternative income sources including giclée reproductions and licensed art images. CONTENTS: A Fresh Dependency and Integration of Social Media Designing An Artist's Website Drawing Traffic To Your Social Media Pages and Website Cultivating Media Exposure and Email Marketing Alternative Income Sources through Self-Publishing and Licensing Who Buys Art? Online Art Gallery Sales Outlets Selling Via eBay, Etsy and Amazon Marketplaces Consigning and Selling Through Auction Houses Barter Exchanges and Cashless Transactions

Saloon with 6-cyl DOHC engines & automatic transmission. Covers most features of Daimler 3.6 & 4.0 litre models. Does NOT cover manual transmission or XJR models. Petrol: 3.2 litre (3239cc), 3.6 litre (3590cc) & 4.0 litre (3980cc). Does NOT cover 2.9 litre SOHC engine.

Now the standardisation work of DAB (Digital Audio Broadcasting) system is finished many broadcast organisations, network providers and receiver manufacturers in European countries and outside of Europe (for example Canada and the Far East) will be installing DAB broadcast services as pilot projects or public services. In addition some value added services (data and video services) are under development or have already started as pilot projects. The new digital broadcast system DAB distinguishes itself from existing conventional broadcast systems, and the various new international standards and related documents (from ITU-R, ISO/IEC, ETSI, EBU, EUREKA147, and others) are not readily available and are difficult to read for users. Therefore it is essential that a well structured technical handbook should be available. The Second Edition of Digital Audio Broadcasting has been fully updated with new sections and chapters added to reflect all the latest developments and advances. Digital Audio Broadcasting: Provides a fully updated comprehensive overview of DAB Covers international standards, applications and other technical issues Combines the expertise of leading researchers in the field of DAB Now covers such new areas as: IP-Tunneling via DAB; Electronic Programme Guide for DAB; and Metadata A comprehensive overview of DAB specifically written for planning and system engineers, developers for professional and domestic equipment manufacturers, service providers, as well as postgraduate students and lecturers in communications technology.
