In an age in which the lack of independent public intellectuals has often been sorely lamented, the historian Tony Judt played a rare and valuable role, bringing together history and current events, Europe and America, what was and what is with what should be. In *When the Facts Change*, Tony Judt's widow and fellow historian Jennifer Homans has assembled an essential collection of the most important and influential pieces written in the last fifteen years of Judt's life, the years in which he found his voice in the public sphere. Included are seminal essays on the full range of Judt's concerns, including Europe as an idea and in reality, before 1989 and thereafter; Israel, the Holocaust and the Jews; American hyperpower and the world after 9/11; and issues of social inclusion and social justice in an age of increasing inequality. Judt was at once most at home and in a state of what he called internal exile from his native England, from Europe, and from America, and he finally settled in New York—between them all. He was a historian of the twentieth century acutely aware of the dangers of ethnic exceptionalism, and if he was shaped by anything, it was the Jewish past and his own secularism. His essays on Israel ignited a firestorm debate for their forthright criticisms of Israeli government policies relating to the Palestinians and the occupied territories. Those crucial pieces are published here in book form for the first time, including an essay, never previously published, called "What Is to Be Done?" These pieces are suffused with a deep compassion for the Israeli dilemma, a compassion that instilled in Judt a sense of responsibility to speak out and try to find a better path, away from what he saw as a road to ruin. *When the Facts Change* also contains Judt's homages to the culture heroes who were some of his greatest inspirations: Amos Elon, François Furet, Leszek Kolakowski, and perhaps above all Albert Camus, who never accepted the complacent view that the problem of evil couldn't lie within us as well as outside us. Included here too is a magnificent two-part essay on the social and political importance of railway travel to our modern conception of a good society; as well as the urgent text of "What Is Living and What Is Dead in Social Democracy," the final public speech of his life, delivered from a wheelchair after he had been stricken with a terrible illness; and a tender and wise dialogue with his then-teenage son, Daniel, about the different outlooks and burdens of their two generations. To read *When the Facts Change* is to miss Tony Judt's voice terribly, but to cherish it for what it was, and still is: a wise, human, deeply informed view on our most pressing concerns, delivered in good faith.

What do you get when you put a group of vagrants, alcoholics, drug addicts, murderers and troubled teenagers, in a dark tunnel alone? T. Styles' next twisted novel, *Mad MaXXX: Children of The Catacombs!* After being blamed for a crime she didn't commit, Madjesty (from the RAUNCHY series) retreats to The Catacombs, a tunnel nicknamed by the homeless who live there. Although the conditions are less than habitable, she discovers some painful things about herself, through the eyes of people more tormented than she is. Despite the rats, public sex exploitations, violence and the mystery of never really knowing the people around you, Madjesty is the most comfortable she's ever been in her life. With them she feels right at home. Until Everest comes into the picture, with her tall tales that only Madjesty doesn't buy. Although it's obvious to others around Madjesty, that she may be falling in love, she avoids it at all cost. After all, every female she has ever cared for was murdered or violently ripped from her life, twisting her mind up in the process. Even though she avoids the affections of Everest, she finds love anyway in a 5-year old named Pickles, who was born in The Catacombs and abandoned by his mother soon after. Before long Madjesty appears to be getting her life together, but there is one problem, Wicked, the power-hungry

self-proclaimed leader, doesn't want her there. He's doing everything he can to have her removed from the Catacombs, even if it means taking her life. Mad MaXXX is a look into the mind of T. Styles, and readers are in for an original ride never seen before in urban fiction. Strap in your seat belt and enjoy!

What should we do with places that were theatres of mass suffering and atrocity? Should we keep them as they were, to remind us of the past, or transform them? This volume addresses these questions by discussing selected key trauma sites, analysed with an innovative semiotic methodology that sheds new light on the notions of trauma and memory.

Winner of the Professional/Scholarly Publishing Award in Economics from the Association of American Publishers Within a few months of assuming the position of curator of medieval coins at the American Numismatic Society in 1980, Alan M. Stahl was presented with a plastic bag containing a hoard of 5,000 recently discovered coins, most of which turned out to be from medieval Venice. The course of study of that hoard (and a later one containing more than 14,000 coins) led him to the Venetian archives, where he examined thousands of unpublished manuscripts. To provide an even more accurate account of how the Zecca mint operated in Venice in the thirteenth through fifteenth centuries, Stahl commissioned scientific analyses of the coins using a variety of modern techniques, uncovering information about their content and how they had been manufactured. The resulting book, *Zecca: The Mint of Venice in the Middle Ages*, is the first to examine the workings of a premodern mint using extensive research in original documents as well as detailed study of the coins themselves. The first of the book's three sections traces the coinage of Venice from its origins in the ninth century as a minor, and unofficial, regional Italian coinage to its position at the dawn of the Renaissance as the dominant currency of Mediterranean trade. The second section, entitled "The Mint in the Life of Medieval Venice," illustrates the mechanisms of the control of bullion and the strategies for mint profit and explores the mint's role in Venetian trade and the emergence of a bureaucratized government. The third section, "Within the Mint," examines the physical operations that transformed raw bullion into coins and identifies the personnel of the mint, situating the holders of each position in the context of their social and professional backgrounds. Illustrated with photos of Venetian coinage from the world's major collections, *Zecca* also includes a listing of all holders of offices related to the medieval Venetian mint and summaries of all major finds of medieval Venetian coins.
