Winner of the 2009 Distinguished Scholarly Monograph Prize, awarded by the American Sociological Association Labor and Labor Movements section Claims have been made on the emergence of a new labour internationalism in response to the growing insecurity created by globalization. However, when persons face conditions of insecurity they often turn inwards. The book contains a warning and a sign of hope. Some workers become fatalistic, even xenophobic. Others are attempting to globalize their own struggles. Examines the claim that a new labour internationalism is emerging by grounding the book in evidence, rather than assertion Analyzes three distinct places - Orange, Australia; Changwon, South Korea; and Ezakheni, South Africa - and how they dealt with manufacturing plants undergoing restructuring Explores worker responses to rising levels of insecurity and examines preconditions for the emergence of counter-movements to such insecurities Highlights the significance of 'place' and 'scale', and demonstrates how the restructuring of multi-national corporations, and worker responses to this, connect the two concepts

?The Manusmriti, the social doctrine of yore, and the Bhagvad-Gita, the spiritual tome in vogue that lay down the discriminatory dharma (duties) of the four social classes (castes) have been the bugbears of the Hindu backward classes. However, to their chagrin, of late, as the latter is being mindlessly promoted even though the former was constitutionally debunked, they began advocating that it too should be dumped in a dustbin. Ironically, the improbability of their progenitor Krishna, the architect of the Gita, relegating his own ilk to the social margins failed to dawn upon these that Gita supposedly slights, even to this day! Thus, their intellectuals, instead of seeking to reclaim their priceless heritage, albeit after ridding its interpolative garbage, tend to rubbish it a la throwing the baby with the bathwater, and needless to say they must ponder. Also, it is high time that the Gita-class stop laying store by the self-aggrandizing verses in this Vyasa's classic, evidently inserted by their progenitors that came to bedevil the Hindu spiritual integrity and social harmony. Likewise, the grumblers of the dalit desertions must see the need for setting the Hindu house in order to prevent the fractious poaching by the Church, if not to facilitate the 'hoped for' return of the prodigals. So also those who take pride that Hinduism is

the only religion that reckons all faith as true, should be concerned about the 'in vogue' Gita that belittles some of their caste fellows. Besides, this work beckons the feminists to reckon the second of the two interpolations from it cited in the cover image that degrades them in unspeakable terms. It is hoped that this 'overdue' work, might lead the 'denied' castes as well as the favoured folks for an objective approach to the Gita 'as it is' which could dispel the misgivings of the former and the delusions of the latter, thereby bridging the Hindu emotional gulf with its abridged book that restores its original form. So, this is a must read for every Hindu, whether or not one concurs with its propositions, and likewise for the students of logic and reasoning.

A great silence has settled upon a drowned world. In the final battle of their final war, the massive citysubs Universalis and Population reduced each other to ruins. One lays wrecked on the seafloor. The other, beached and lifeless, litters the island of pristine polar ice it tried to destroy. Pockets of survivors huddle together. On the frigid surface, Ralla Gattley and Thom Vargas cling to life and each other. Below, the soldier Geran Lo fights relentlessly to free trapped and drowning civilians. As they struggle against a world determined to kill them, a new and even more dangerous menace approaches. Undersea Atrophia is the second book in the Undersea Saga.
