A great way to create a technical drawing by hand is to use thin or tracing paper, draw a line down the centre and draw one side of the product. Fold the paper in half and draw the reflection by tracing the original drawing. This should then be placed on a flat, light surface or a lightbox, if you have one, and drawn onto paper.

Technical Drawing for Fashion: A Complete Guide: BASIA ...

Fashion Flats & Technical Drawing is an excellent textbook and learning tool. Every future (and current) designer should have it in their library. What I find so special is the emphasis on designing (drawing) from the basic form out, with seams, details and function taking place as the design takes form.

Fashion Flats and Technical Drawing: Studio Instant Access ...

Flats, or technical drawings, are essential for anyone working in the fashion industry. Used to convey design ideas and garment details to pattern cutters and machinists, it is essential that they are drawn accurately to avoid misunderstanding and costly mistakes in sampling and production.

Flats: Technical Drawing for Fashion (Portfolio Skills ...

Now that you have your sketch, you will begin to create a Technical Package (also referred to as a Tech Pack, or TP). A Tech Pack's basic pages are Sewing Details, Points of Measurement (or POM), Wash Description (mostly with denim), Label/Hangtag Placement, Bill of Materials (or BOM), and Packaging Instructions.
