Sound Advice is a valuable resource for college students, beginning teachers, and experienced conductors of children's choirs. It covers the vast array of skills needed by today's conductor and will benefit all choir directors who want their choirs to reach a higher level of artistry. This book will be useful on many levels: for the college student studying the child voice and elementary teaching methods; for the teacher beginning to direct choirs in schools, synagogues, churches and communities; for experienced children's choir directors who wish to know more about orchestral repertoire for treble voices,

conducting an orchestra, and preparing a children's choir to sing a major work with a professional orchestra. The underlying educational philosophy is sound; the author sees development of musicianship through singing as the primary goal of a children's choir program. This philosophy differs dramatically from the traditional concept of the conductor as all-knowing and the singers as receptacles. An outstanding aspect of the book is how the author leads the reader to an understanding of how to teach musicianship. Developing literacy in the choral setting is a mysterious, amorphous process to many conductors, but the author clearly outlines this important process with practical suggestions, well-documented examples, and a clear reading style which will reach readers on many levels. The comprehensive repertoire, skill-building sheets, and programs for all types of children's choirs will provide teachers with immediate and highly valuable resources.

Arising out of many year's experience of helping to lead local church worship and counselling work in a children's hospice, this is the first of three new volumes that focuses on the occasions when many non-churchgoers visit a church: for christenings, weddings, funerals, and memorials. These rites of passage present key opportunities for occasional visitors to encounter the Christian faith. If they are imaginatively handled a lifelong interest can be aroused. If they are insensitively done, people can be put off for life. This practical resource offers prayers, forms of words and many tried and tested ideas for creating rituals that give support at a time of great need following a death. It will enable the creation of rites (based on the authorized liturgical texts) that are beautiful, memorable and meaningful. Particular help is given for that most difficult of pastoral challenges, the death of a child and the care of the bereaved family.

This book is about WAR--not the causes and results, not the planning and the campaigns, not the artillery and the bombs. It is about the heinous crimes committed by the combatants, the horrifying experiences of civilians, the devastation of cities and villages, the killing and the dying, the glory leading to revulsion and guilt, and the assimilation of suffering that either ends in death or in the triumph of the soul. It looks at the struggle of the church to remain faithful and the servants of the church who seek to bring sense and solace to the victims. It discusses antisemitism, racism, and war itself from biblical perspectives. It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples--the mental instability of the survivors and the loss and grief of those on the home front. In war, how can men and women carry out the actions that they do? As Viktor Frankl writes: "After all, man is that being who has invented the gas chambers of Auschwitz; however, he is also that being who has entered those gas chambers upright, with the Lord's Prayer or the Shema Yisrael on his lips."
