exam? This book is a good step towards that process. The book has been designed to help you to improve your performance on the exam, as well as help you identify some weak areas in your nursing knowledge. How can this book help you to prepare for this exam? The book is intended to serve as a study aid to improve performance on the LPN exam. To achieve this goal, the text is divided into the 4 major areas of nursing study: Medical Surgical, Maternal-Infant, Paediatrics, and Mental Health. Incorporated into these areas are the aspects that are covered on the LPN exam. The questions are written in a straightforward question/answer format and no intention has been made to mislead or 'trick' the student. The answer provided will be the best possible answer for that question.

The unique format of this book differs from all other review and test preparation texts. The primary intent of the book is to serve as a study aid to improve performance on paramedic certification and refresher examinations. With this goal in mind, the text is written in rapid-fire, question/answer format. The student receives immediate gratification with a correct answer. Misleading or confusing multiple-choice 'foils' are not provided, thereby eliminating the risk of assimilating erroneous information that made an impression. Questions themselves often contain a pearl reinforced in association with the question/answer. Additional hooks are often attached to the answer in various forms, including mnemonics, evoked visual imagery, repetition and humour. Additional information not requested in the question may be included in the answer.
