~~7 Benefits of SAM-e Supplement You Need to Know~~

Brown explained that SAM-e is produced in the body from methionine, a sulfur-containing amino acid, and the energy-producing compound adenosine triphosphate. SAM-e is a physiologically essential compound, he said, adding that some chemists believe it ranks with adenosine triphosphate (ATP) as a pivotal molecule in living cells.

NOTE: Illustrated and designed to encourage the newer generation, especially those who find it difficult to read Arabic or any other language, this is a humble attempt at reaching out to people across the globe so that they can benefit from the blessings of such duas. It has both, Arabic as well as English text for the readers to benefit

Online Library Samas E

it from. About Dua e Kumayl: Kumayl Ibn Ziyad was a prominent companion of Amir al Muminin, Imam Ali Ibn Abi Talib (as.) and this sublime Dua was first heard from the beautiful, though anguished, voice of Imam Ali. According to Allama Majlisi, Kumayl had attended an assembly in the Mosque at Basra which was addressed by Imam Ali in which the night of the 15th of Shaban was mentioned. Imam Ali said- "Whosoever keeps awake in devoutness on this night (15th Shaban) and recites the Dua of Prophet Khizr, undoubtedly that person's supplication will be responded to and granted." When the assembly at the Mosque had dispersed, Kumayl called at the house where Imam Ali was staying, and requested him to inform him of

Online Library Samas E

Prophet Khizr's Dua. Imam Ali asked Kumayl to sit down, record and memorise the Dua which Imam Ali dictated to Kumayl. Imam Ali then advised Kumayl to recite this Dua on the eve of (i.e. evening preceding) every Friday, or once a month or at least once in every year so that, added Imam Ali, "Allah may protect thee from the evils of the enemies and the plots contrived by impostors. O' Kumayl! in consideration of thy companionship and understanding, I grant thee this honour of entrusting this Dua to thee.

Ancient Prophecy: Near Eastern, Biblical, and Greek Perspectives is the first monograph-length comparative study on prophetic divination in ancient Near Eastern, biblical, and Greek sources. Prophecy is one of the ways humans have believed to become conversant with what is believed to be superhuman knowledge. The prophetic process of communication involves the prophet, her/his audience, and the deity from whom the message allegedly comes from. Martti Nissinen introduces a wealth of ancient sources documenting the prophetic phenomenon around the

Online Library Samas E

ancient Eastern Mediterranean, whether cuneiform tablets from Mesopotamia, the Hebrew Bible, Greek inscriptions, or ancient historians. Nissinen provides an up-to-date presentation of textual sources, the number of which has increased substantially in recent times. In addition, the study includes four analytical comparative chapters. The first demonstrates the altered state of consciousness to be one of the central characteristics of the prophets' public behavior. The second discusses the prophets' affiliation with temples, which are the typical venues of the prophetic performance. The third delves into the relationship between prophets and kings, which can be both critical and supportive. The fourth shows gender-inclusiveness to be one of the

Online Library Samas E

peculiar features of the prophetic agency, which could be executed by women, men, and genderless persons as well. The ways prophetic divination manifests itself in ancient sources depend not only on the socio-religious position of the prophets in a given society, but also on the genre and purpose of the sources. Nissinen contends that, even though the view of the ancient prophetic landscape is restricted by the fragmentary and secondary nature of the sources, it is possible to reconstruct essential features of prophetic divination at the socio-religious roots of the Western civilization.
