It is now a scientific fact, the pain we experience as a result of heartbreak stimulates the same region of the brain stimulated when we are experiencing physical pain. From personal experience, psychology doctoral candidate Troy Byer profoundly understands heartbreak pain is real. As a direct result of her personal experience, in this book, Troy will help you to understand, getting over your ex is a delicate process that requires actions beyond crying, gossiping, stalking, ignoring or avoiding. Such a process demands that you let go of your immobilizing monologs and that you move into transforming dialogues and inquiries that are life altering experiences. In addition to fulfilling the process above, the 9 Keys in this book will enable you to alter your relationship to pain, labels and your circumstances. To better understand how you navigate the tumultuous sea of love, these 9 Keys will assist you in finding the sea vessel that best represents you. Once you understand how you are designed, you will also understand the importance of choosing other ships that your ship can inherently relate to and therefore comfortably be in a relation-ship with. Metaphorically speaking, if you're a slow but steady Rowboat personality, the way you navigate the sea in the midst of a storm will vastly differ from that of a thrill-seeking Speedboat personality. As a result of this difference, it's inevitable that someone is going overboard. Finally, in addition to identifying and learning about the kind of boat you float on the sea of love, you will also learn about the secret treasures you exchanged with your ex while journeying as one. The surprise is that these precious treasures are truly the treasures you have been diving for and nearly willing to die for your entire life. Once you understand, you already possess the treasure you have been seeking on the sea of love, the search outside of you ends and a new relationship with yourself begins.

SPECIAL OFFER for Bookstores! Discounted Retail Price NOW at \$42.95 instead of \$52.95 A groundbreaking guidebook fit for healing traumas caused by years of emotional abuse from narcissists and childhood under toxic parents. What could be the best book to help individuals suffering from the effects of the traumas? Is there one that aims to not only aid the reader to full recovery but also intends to educate the reader on how to cope better and protect themselves against it? Here is the Narcissist. Readers of this book can also expect lessons and techniques on how to overcome any existing borderline personality disorder and anxiety in their respective relationships. By the end of this book, you will be free from any complications and even be well-equipped to defend yourself from now on. Upon reading the Narcissists, it will first take us through necessary information regarding Borderline Personality Disorders (BPD), along with their signs and symptoms, to not only give you a proper understanding of the matter but also clarify and debunk any misleading myths about it. In this book you will learn about: - The narcissistic relationship patterns - Healing from narcissistic abuse - What Borderline Personality Disorder is; - Symptoms of BPD; - Available therapies; - How to deal with people affected by BPD - Being child of a narcissistic mother - Narcissistic strategies of manipulation - Protecting yourself from abuse - Stop the cycle of narcissism ...And much more! Aside from teaching you how to gain control of yourself, the book also makes it a point to include a section where you can learn to protect yourself from narcissists. Along with traits to know and signs to look out for when you're dealing with a narcissist person. Overall, this book is an excellent read for any victims and vulnerable victims-to-be, that has yet to face a narcissistic, toxic, and emotionally abusive person. Buy it NOW and let your customers get addicted to this amazing book!

A beautiful sheriff tracks a serial killer through small town Alabama in the New York Times bestselling author 's " fun and satisfying " romantic thriller (Publishers Weekly). He 's their secret admirer, wooing them with phone calls, love letters, and special gifts. From a distance, he admires them. Desires them. Despises them. And when he gets close enough, he kills them all. Adams County, Alabama, is a friendly place where everyone knows each other—but not well

enough, it seems. Someone among them is a serial killer who first romances, then stalks, kidnaps, and kills his victims. It ' s the first big case for sheriff Bernie Granger, and a chance to prove herself to her new partner, Memphis police detective Jim Norton. But this killer is uncannily smart. It ' s as if he knows what Bernie is thinking. And his next move is more than shocking—it ' s chillingly personal.

Diamonds are a multi-billion dollar business involving some of the world ' s largest mining companies, a million and a half artisanal diggers, more than a million cutters and polishers and a huge retail jewellery sector. But behind the sparkle of the diamond lies a murkier story, in which rebel armies in Angola, Sierra Leone and the Congo turned to diamonds to finance their wars. Completely unregulated, so-called blood diamonds became the perfect tool for money laundering, tax evasion, drug-running and weapons-trafficking. Diamonds brings together for the first time all aspects of the diamond industry. In it, Ian Smillie, former UN Security Council investigator and leading figure in the blood diamonds campaign, offers a comprehensive analysis of the history and structure of today ' s diamond trade, the struggle for effective regulation and the challenges ahead. There is, he argues, greater diversification and competition than ever before, but thanks to the success of the Kimberley Process, this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world ' s poorest nations. This part of the diamond story has rarely been told.

Investigating the latest crime scene of a celebrity thief who has been staging lucrative heists and donating the spoils to charity, rookie deputy Charlie Hood is forced to make an ethics-testing decision when the thief is targeted by a professional killer. Reprint.

India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

The First World War ' s centenary generated a mass of commemorative activity worldwide. Officially and unofficially; individually, collectively and commercially; locally, nationally and internationally, efforts were made to respond to the legacies of this vast conflict. This book explores some of these responses from areas previously tied to the British Empire, including Australia, Britain, Canada, India and New Zealand. Showcasing insights from historians of commemoration and heritage professionals it provides revealing insider and outsider perspectives of the centenary. How far did commemoration become celebration, and how merited were such responses? To what extent did the centenary serve wider social and political functions? Was it a time for new knowledge and understanding of the events of a century ago, for recovery of lost or marginalised voices, or for confirming existing clich é s? And what can be learned from the experience of this centenary that might inform the approach to future commemorative activities? The contributors to this book grapple with these questions, coming to different answers and demonstrating the connections and disconnections between those involved in building public knowledge of the ' war to end all wars ' .
