Top Knife is succinct yet detailed, timely yet timeless and dare I say it, funny! Several times throughout the book the authors will state something to the effect of. "The books tell you to do X; we have never been able to get X to work. If you can, please share your secret with us!" Maybe I'm easily amused but those passages made me laugh out ...

This book will help you take a badly wounded patient to the operating room, organize yourself and your team, do battle with some vicious injuries and come out with the best possible result. It is a practical guide to operative trauma surgery for residents and registrars, for general surgeons with an interest in trauma, and for isolated surgeons operating on wounded patients in military, rural or humanitarian settings. A surgical atlas may show you what to do with your hands but not how to think, plan and improvise. Here you will find practical advice on how to use your head as well as your hands when operating on a massively bleeding trauma patient. The first part of this book presents some general principles of trauma surgery. The second part is about trauma surgery as a contact sport. Here we show you how to deal with specific injuries to the abdomen, chest, neck and peripheral vessels. The single most important lesson we hope you will derive from this book is to always keep it simple because, in trauma surgery, the simple stuff works.

Operative trauma surgery is a key element of surgical training world-wide, but many surgical trainees have only limited exposure to it throughout their training. The aim of this book is to provide a detailed technical guide for trauma surgery by two experienced surgical educators who are experts in the field. The original concept behind this text (compared to other operative surgery texts) is a special emphasis on intra-operative judgement, decision-making, and thought processes, as well as technical 'tips and tricks'. The book will be generously illustrated

Get Free Top Knife The Art

with black-and-white line drawings, but will NOT be a surgical atlas, because there will not be a step-by-step sequence of illustrations for each procedure. The illustrations will be incorporated into the text rather than appearing on separate pages. As such, the book will be an 'operative surgery' book, along the lines of such British classics as Peter Jones' 'Emergency Abdominal Surgery', Hugh Dudley's editions of 'Hamilton Bailey's Emergency Surgery' and Keen's 'Operative Surgery and Management'.

Not One Knife is Unworthy. Every Photo is Exquisite! & break;& break; Art of the Knife showcases, in full color professional-grade photography, 500 of the world's finest art knives made. & break;& break; These are the artists' art knives - sculpted cutting machines embellished with scrimshaw, engraving, gold, precious stone inlays, carving and etching. & break;& break; It's a parade of pearl, ivory, mammoth tooth, Damascus, silver ware, exotic wood, diamonds, rubies and more. It will definitely be a conversation piece when displayed on your coffee table, as well as an inspiration for artists and knife makers alike.

Covers injuries to the upper and lower extremities as well as the internal organs; discusses everything from initial care and diagnostic options, through the management of specific injuries and special problems, to dealing with complications; describes the newest diagnostic modalities (such as color flow Doppler and MR angiography) as well as the latest interventional techniques; and addresses specific challenges such as minimal vascular injuries, endovascular grafts, iatrogenic vascular trauma, vascular trauma associated with illicit drug use, and compartment syndromes.

THE CLASSIC BOOK THAT HAS INSPIRED MILLIONS A penetrating examination of how we live and how to live better Few books transform a generation and then establish themselves as touchstones for the generations that follow. *Zen and the Art of Motorcycle Maintenance* is one such book. This modern epic of a man's search for meaning became an instant bestseller on publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, *Zen and the Art of Motorcycle Maintenance* becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.

What keeps so many of us from doing what we long to do? Why is there a naysayer within? How can we avoid the roadblocks of any creative endeavor—be it starting up a dream business venture, writing a novel, or painting a masterpiece? *The War of Art* identifies the enemy that every one of us must face, outlines a battle plan to conquer this internal foe, then pinpoints just how to achieve the greatest success. *The War of Art* emphasizes the resolve needed to recognize and overcome the obstacles of ambition and then effectively shows how to reach the highest level of creative discipline. Think of it as tough love . . . for yourself.

Guerrilla Girls: The Art of Behaving Badly is the first book to catalog the entire career of the Guerrilla Girls from 1985 to present. The Guerrilla girls are a collective of political feminist artists who expose discrimination and corruption in art, film, politics, and pop culture all around the world. This book explores all their provocative street campaigns, unforgettable media appearances, and large-scale exhibitions. • Captions by the Guerrilla Girls themselves contextualize the visuals. • Explores their well-researched, intersectional takedown of the patriarchy In 1985, a group of masked feminist avengers—known as the Guerrilla Girls—papered downtown Manhattan with posters calling out the Museum of Modern Art for its lack of representation of female artists. They quickly became a global phenomenon, and the fearless activists have produced hundreds of posters, stickers, and billboards ever since. • More than a monograph, this book is a call to arms. • This career-spanning volume is published to coincide with their 35th anniversary. • Perfect for artists, art lovers, feminists, fans of the Guerrilla Girls, students, and activists • You'll love this book if you love books like Wall and Piece by Banksy, Why We March: Signs of Protest and Hope by Artisan, and Graffiti Women: Street Art from Five Continents by Nicholas Ganz
