While we were initially impressed by the number of tasks the Husqvarna Viking Huskylock 936 serger is capable of performing, we were dismayed by the length of time it takes to switch from one task to another. It can take up to 20 minutes to re-thread the machine and change needle positions in order to perform a relatively simple task. Once executed, however, the stitches are well formed and ...

THE user-friendly reference essential for any current or prospective serger owner! Practical, easy solutions for any problem with any serger, no matter what the brand, model, or vintage. Expert-savvy, timesaving tips on serger threading, needles, threads, feet, upkeep, and much more. Comprehensive strategies that help answer "Which serger should I buy?"

Here, in the first comprehensive survey of her work by an American museum, authors Peter Boswell, Maria Makela, and Carolyn Lanchner survey the full scope of Hoch's half-century of experimentation in photomontage - from her politically charged early works and intimate psychological portraits of the Weimar era to her later forays into surrealism and abstraction.

For those who have mastered the basics and want a challenge, Serger Secrets provides instructions for adding more than 50 techniques to the sewers arsenal. Complete with troubleshooting tips and dozens of inspiring photographs of completed garments, Serger Secrets is guaranteed to bring out the creativity in any designer.

This quilt has been the source of comments, compliments and inspiration. The Antique Linens quilt has elicited more comments than anything I've ever done. That is why I am so happy to finally be able to present it to you in book form. It is a long awaited project that I am excited and thrilled to be able to bring to you. In these pages, you will find explicit directions for cutting, stabilizing, embroidering, assembling and finishing one of the most beautiful quilts around today. Truly elegant in ivory satin and moiré decorator faille, the embroidery designs are sewn in the new Sulky 12 weight cotton thread. None of the designs were digitized to use this new heavyweight thread, but they sew beautifully with it. The designs were created for the standard 30 and 40 weight rayon and polyester embroidery thread that most people have in their thread library. When thinking about the quilt, I thought that by using the heavier threads, it would give the illusion of hand work embroidery floss. The result is a beautiful, padded appearance that truly does look like hand embroidery. The same is true for the Antique Linens quilt, the threads and the additional layers of batting gives the entire quilt a very three dimensional look that is beyond compare. And now, it is yours to create. When thinking about creating a book for a CD from Cactus Punch, I felt that I needed to give you a reason to purchase the book even if you never made the quilt. As a result of that thought process, I have given you a book full of ideas, projects, instructions, patterns and designs. In thinking along these lines, I asked Judi Jaksa of Dallas, Texas to recreate twelve more of the original embroideries that I designed with the decorative stitches so long ago. Of the twelve original designs that were digitized, you have a total of 99 designs to work with. With careful segmenting and stitch editing of the larger embroideries, I have been able to give you multiple options for the creation of many more exciting blocks. On the CD, you will find a complete set of patterns for

Read Online Viking Serger 936 Manual

each quilt block, along with pictures of the stitched block. The directions are for using the Antique Linens #62 Cactus Punch CD. Each block has a placement guide for perfect hooping...All you need to do is to print them out. You will need Adobe Acrobat or Adobe Reader on your computer to be able to print the patterns since they are in PDF format. There are lots of designs on the CD, but the quilt was put together using the Cactus Punch CD and to duplicate it exactly, you will need to purchase that CD. You can certainly create your own quilt using the designs that come with this book. I have gotten you started with one gorgeous block. But that's not all...along with the many extra designs, there are sixteen projects that are designed for easy gifts and a way to showcase the included embroideries and the ones from the Cactus Punch #62 CD. There are pillows, vests, purses and cases, wall hangings, greeting cards and many more, just waiting for you to create these gifts of love for someone special...You may even have to make some for yourself. I know you will enjoy using this innovative book and CD.

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

Learn to Serge with Confidence! Expand your skills beyond those using a traditional sewing machine to discover the ease and versatility of creating wonderful projects with a serger instead. Renowned author and sewing expert Nancy Zieman shows you everything you need to know about serging through easy-to-follow instructions featured in *Serge with Confidence*. First build your confidence by learning the basic techniques and tools needed on your way to serging success, and then put those skills to use by creating one of the many showcased projects. Whether you are a beginning serger or you have been using your machine for years, *Serge with Confidence* is the No. 1 resource to have on hand in your quest for serging

excellence. You'll find: Comprehensive overview of a serger and how to use it Overview of the types of stitches available, products and tools 18 inspirational projects, from wardrobe pieces and accessories to home decor, and holiday ideas, all fully illustrated and beautifully photographed Through guide to keeping your serger running smoothly and trouble-free

This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.
