I knew from author interviews that Wild Rover No More: Being the Last Recorded Account of the Life & Times of Jacky Faber was the title author L.A. Meyer had chosen for the last book in the series and that it would only be released in the event of his death. A quick Google search confirmed what I feared, that Louis Meyer passed away last summer and that this would indeed be the last L.A. Meyer book published.

Jacky Faber is framed as passing confidential U.S. information to the British. Forced to flee Boston, she goes undercover as a governess for a prominent Puritan family. When outed by a nosy postmaster, she deserts the respectability of her position, dons a leotard and slippers, and poses as a Russian tightrope walker in a traveling circus. But the law soon catches up with her, and prospects do not look good. Through her many adventures, Jacky has always found the ingenuity to escape dire situations, but this time it looks like Puss in Boots has run out of lives . . . and her happily-ever-after will be cut short at the foot of the gallows.

Just when it looks like Jacky Faber and her beloved Jaimy will finally find their romance, Jacky is accused of treason and must flee Boston while her friends attempt to clear her name. Of course that means wild adventures for our fun-loving heroine, who manages to secure a job as a governess and run away with the circus. The highly anticipated grand finale of the Bloody Jack Adventures. "

* Finalist for the PEN/E. O. Wilson Literary Science Writing Award * Washington Post Notable Book of the Year * People Magazine Best Book of the Year * Shelf Awareness Best Book of the Year * "Extraordinary and courageous . . . No doubt if everyone were to read this book, the world would change."---New York Times Book Review New York Times-bestselling author Ron Powers offers a searching, richly researched narrative of the social history of mental illness in America paired with the deeply personal story of his two sons' battles with schizophrenia. From the centuries of torture of "lunatics" at Bedlam Asylum to the infamous eugenics era to the follies of the anti-psychiatry movement to the current landscape in which too many families struggle alone to manage afflicted love ones, Powers limns our fears and myths about mental illness and the fractured public policies that have resulted. Braided with that history is the moving story of Powers's beloved son Kevin--spirited, endearing, and gifted--who triumphed even while suffering from schizophrenia until finally he did not, and the story of his courageous surviving son Dean, who is also schizophrenic. A blend of history, biography, memoir, and current affairs ending with a consideration of where we might go from here, this is a thought-provoking look at a dreaded illness that has long been misunderstood.

The first collection of plays from the multi-award-winning playwright and novelist. Introduction by Alice Hamilton. Visitors: On a farmhouse at the edge of Salisbury Plain, a family is falling apart. Stephen can't afford to put his mother into care; Arthur can't afford to stop working and look after his wife. When a young stranger with blue hair moves in to care for Edie as her mind unravels, the family are forced to ask: are we living the way we wanted? Visitors is a haunting, beautiful look at the way our lives slip past us. Eventide: A love song, an elegy, a celebration: Eventide tells the story of three people whose worlds are disappearing. John is a landlord forced to sell up; Liz is a church organist who can't get a gig; Mark takes what work he can just to pay the rent. Their tales unfold round the back of a pub hidden deep in the heart of the Hampshire countryside - a heart that doesn't seem to be beating any more. While We're Here: Eddie and Carol were lovers once, but their lives went in different directions. Now they meet again on a park bench in a town full of memories, and find something still burns between them. Nightfall: On a farm outside Winchester, Ryan struggles to make a living off the land. His sister Lou has returned home after the death of their father to support Jenny, their formidable mother. Not so long ago, when a neighbour's Labrador strayed onto the farm, their dad reached for his shotgun. Now, when Lou's boyfriend Pete reappears, flush with money from his job at an oil refinery, Jenny fights to hold her children to the life she planned for them.

From the New York Times bestselling author of Me Before You and One Plus One, in an earlier work available in the U.S. for the first time, a post-WWII story of the war brides who crossed the seas by the thousands to face their unknown futures 1946. World War II has ended and all over the world, young women are beginning to fulfill the promises made to the men they wed in wartime. In Sydney, Australia, four women join 650 other war brides on an extraordinary voyage to England—aboard HMS Victoria, which still carries not just arms and aircraft but a thousand naval officers. Rules are strictly enforced, from the aircraft carrier's captain down to the lowliest young deckhand. But the men and the brides will find their lives intertwined despite the Navy's ironclad sanctions. And for Frances Mackenzie, the complicated young woman whose past comes back to haunt her far from home, the journey will change her life in ways she never could have predicted—forever.

English Grammar: The Basics offers a clear, non-jargonistic introduction to English grammar and its place in society. Rather than taking a prescriptive approach, this book helps the reader become aware of the social implications of choices they make to use standard or non-standard (regional/dialect) forms. Readers will consider: • what grammar is and how it fits into the structure of language; • how grammar functions in the school curriculum, the press, broadcasting and social media, as well as how these outlets reflect and reinforce our attitudes towards grammar; • differences between speech and writing, as well as between formality and informality; • major different approaches to theorising and describing grammar from important grammarians, including Noam Chomsky and Michael Halliday. Featuring a glossary of key terms and practical tips and insights from the author's 50+ years of language teaching experience around the world, this book is for anyone who has ever found themselves questioning the 'rules' of the English language.

Jacky Faber, rich from her exploits diving for Spanish gold, has purchased the Lorelei Lee to carry passengers across the Atlantic. Believing she has been absolved of past sins against the Crown, Jacky docks in London to take on her crew, but is instead arrested and sentenced to life in the newly formed penal colony in Australia. To add insult to injury, the Lorelei Lee is confiscated to carry Jacky and more than 200 female convicts to populate New South Wales. Not one to give in to self pity, Jacky rallies her sisters to "better" their position—resulting in wild escapades, brushes with danger, and much hilarity. Will Jacky find herself a founding mother of New South Wales, Australia? Not if she has anything to do about it! This e-book includes a sample chapter of THE MARK OF THE GOLDEN DRAGON.
